THE WATER SUPPLY.

THE WATER SUPPLY.

Visit of the Mayor, Committee on Water, and Experts, to the Pump-House and Three-Bile Locks-Regular Water Hours-The Council to be Called Together to Order a Steam-Pump-The Mayor Directs the Water to be Turned from the Canal into the River.

resolved themselves into a brief shower about 3:30 o'clock yesterday afternoon.

It was hoped that though we got so little rain there was more of it in the up-country, but st 9 P. M. the telegraphic report from Williamson's (near Clifton Forge) was "clear and hot." At Lynchburg, at the same hour, the weather was reported "clear, warm, and suitry." Turned from the Canal into the River.

Testerday morning the Mayor, the Council Committee on Water, the City Engineer,
the Superintendent of the Water-Works,
the water into the canal from Bosher's dam: WEATHER REPORT.

INDICATIONS FOR To-DAY.—For the Middle Atlantic States, fair weather, variable winds, mostly northerly, stationary or lower temperature, and higher pressure.

Captalo Maxwell T. Clarke, president of the Common Council; General Joseph R. Anderson, Major Ned Archer, Messrs. H. P. Edmond, Alexander Delancy, Charles Campbell, Alexander Calder, and Henry Exclusionary or lower temperature, and higher pressure.

Captalo Maxwell T. Clarke, president of the Dispatch is wrong in saying I had no practical information as to the amount of water that would come through Bosher's Cutshaw. I differ with him. I proposed the pump-house and the upper using full bead from the canal to the wheels in the pump-house if the water was let in at Bosher's. Colonel Cutshaw said it would take the pump-house of water that would come through Bosher's cutshaw. I differ with him. I proposed in the pump-house if the water was let in at Bosher's. Colonel Cutshaw said it would take the pump-house of water that would come through Bosher's cutshaw. I differ with him. I proposed to be pump-house and the upper using full bead from the canal to the wheels in the pump-house if the water was let in at Bosher's. Colonel Cutshaw said it would take the pump-house of water that would come through Bosher's cutshaw. Captain Maxwell T. Clarke, president of urse to pursue to get a supply of water take two months to agrange for it. I said for the city. It was ascertained that the water in the tigability. I had no technical information

forebay at the pump-house was so low that about it personally, but had been told by it was neath the suction-pipes, and there-engineers that it could be done in a week.

REGULAR WATER HOURS.

The canal above the Three-Mile locks was next examined, as well as the dim at all. that point. After much more examination and the visiting of the different points with peratic Committee was held last the committee ad pted the following resolu-

> diminishing the consumption to the lowest we all have to wash our faces in the same essible amount.

Resolved, That the Superintendent be or-

(This only puts in forms! shape the action | comes last." the committee on Monday.] WATER MUST COME FROM THE PASIN.

The following was also adopted by the Resolved, That the manufactories drawng their power from the canal or basin be Company, and are, as we understand, liable increased quantity to the river. This request is only intended to last during the present scarcity of water, which is so great that the suction-pipes of our pumps are now out of the water, and therefore are en-

tirely useless. STEAM-PUMP NECESSARY.

It was also decided to recommend the of the City Council will be held this eve ning. The parties, after taking this notion, returned to the city at 3 o'clock.

The City Engineer, in reply to a question, stated that he did not think the new works would be completed until December. Adventure. Here the whole volume of Honor, I did all I could to communicate Therefore the committee decided that the pump should be gotten at once.

THE WORTHINGTON PUMP.

When the Council meets Colonel Cutshaw will have a great deal of informaion concerning steam-pumps to place before them. But as there is no time to be lost it is probable that the purchase of the Worthington pump will be recommended. It was built for exhibition at the Philadelphia Centennial, and has been kept in perthree or four weeks Colonel Cutshaw can have the foundation for the pump pre-

to the New reservoir. THE MAYOR TAKES THE BULL BY THE HORNS AND ORDERS THE WATER TO BE TURNED August 20th :

AND ORDERS THE WATER TO BE TURNED AUgust 20th:

FROM THE CANAL INTO THE RIVER.

At 6½ o'clock yesterday evening, not having received the assent of the mili-owners (who it is understood wished to wait until ored; congestion of brain, I colored; constitution of the constitution of the constitution of the colored; congestion of brain, I colored; constitution or constitution of the const (who it is understood w to-day for conference), Mayor Carrington gestion of liver, I white; issued the following peremptory order:

MATOR'S OFFICE, ? RICHMOND, VA., August 23, 1881. James L. Davis, Esq., Superintendent City

Industrial and Mechanical. LINGS NUMBER OF NEW HOUSES GOING UP-

NO. 47.

At no time in the history of this city has there been so much activity among the mechanics as at present, and this activity is conspicuous among contractors and builders, whose labor, unlike that of most others, is a material and lasting improvement to the city—something from which revenues are bereafter to flow. Notwithstanding there are more horses and mules here then in any other city of its size in the United States, our transportation facilities have been entirely inadequate to the demand for a prompt delivery of such building materials as brick, sand, &c., and this, in the face of the addition of say 1,000 bessts of burden to the already great number.

This material improvement of the city has not been confined to any particular locality or ward. The parts of the city here-tofore considered finished and proof against even a whitewash-brush have not been abl to withstand the march of improvement. Nor have building operations been confined to any particular class of houses, stores al-most vicing with residences in number, and, what is still more encouraging, there has motion. The company's action is dependent upon the consent of the Tredegar and other mills, unless the water is enough for all.

The parsoner been mare than a fair proportion of manufacturing houses erected. The urgent dependent of the requisition from the Governor all.

Trems.

What is still more encouraging, there has been mare than a fair proportion of manufacturing houses erected. The urgent department of the requisition from the Governor with as rapidly as busy hands can erect them, one contractor of this city having the requisition has been received at the France. built not less than twenty-five in the last our months. Be it known, too, that these of the Governor from the State it has not houses are not built by building fund socie received his signature, and consequently the ties or corporations, but by persons of small Government are not able to produce it in means—mechanics who, by strict economy, court this morning. build for themselves-for their own occupa-

Editors,—While there is so much discussion on the water question. I would be leave to ask if the Richmond and Alle-which should be respected, and having are built thicker, and better materials and Few houses are now built without the

the city now boasts seven architects, and the rity now boasts seven architects, who are liberally putronized. Until quite recently three architects were thought more than were necessary. So, with our number of architects doubled, with not a single brick- or stone-mason idle, without a full delay in getting the use of that much of the this morning. The Government has sat demand for skilled workmen in every other course, only be temporary. industrial boom.

proposals until September 7th at 6 o'clock

ORED CHURCE.-A few days ago we gave a description of the very elaborate improve-ments about to be made to the First African church. The Ebenezer Baptist church, situated on Leigh street near Brook avenue, ments to their place of worship. A portion the building extended some ten or fifteen With proper canal communication this splendid sheet of water would be at our communicated with tower eighteen feet square at the base finished with an octagonal spire 125 feet high. The octagonal portion of the spire will be divided from the perpendicular porion by four barging pinnacles, and will be covered with ornamental galvanized iron shingles. Over the main entrance door there will be a large Muilion window, with a rose sash filled with stained glass worked in the upper portion. Over this window, which opens into an organ-gallery, will be the belfry, containing triplet blinds, long and short, on three sides of the same. Besides the main-entrance door, there will be two side doors on the front entering the basement, and also ascending to the audience-floor.

He asked Mr. Phillips if he was ready to and sanded. The present pews will be painted and sanded. The present pews will be taken out and new circular one- substituted. THE CONSERVATIVE DEMOCRAT. The old galleries will also be overhapled and have new seats and very ernamental THE CONSERVATIVE-DEMOCRAT. onts. Two right and left stairways ascend

It will be devoted to the postural content in the State, and will happy for the union of all Conservative Democrate on the regular ticket of the party. It will be formiobed to subscribers at FIFIY CENTS A COPY. To clube of five and over, FORTY CENTS.

Editors Dispatch: The citizens living in the neighborhood of Thirtieth street between Marshall and Leigh are very much annoyed nearly every night by a crowd of boys and youths who congregate there and indulge in profane and indecent ianguage. Ladles are actually prevented from sitting on the front porches on account of this state of things. We have appealed to the police several times, but without avail, and we now ask your influence to rid us of this intolerable nuisance.
